IVR Reminders and Tips:

- Please use a telephone handset or headset. *Use of cell phones or speaker phone is not recommended.*
- Review and gather the Required Information before calling. You have 3 opportunities to enter the requested information or enter the requested information correctly before you will be requested to call back and then disconnected.
- To assist with entry of beneficiary information, we strongly encourage use of our MBI Converter and IVR Beneficiary Name to Number Converter Tools (https://www.cgsmedicare.com/ivr_converter.html).

Introduction

The CGS Jurisdiction 15 (J15) HHH Interactive Voice Response (IVR) System (1.877.220.6289) is designed to assist home health and hospice providers in obtaining answers to numerous inquiries through this self-service option.

Our customer service representatives (CSRs) continue to be available to answer difficult, claim specific questions, in addition to other complex inquiries that a provider might encounter. **However, please note that the CSRs will only answer questions that cannot be answered by the IVR.** The Centers for Medicare & Medicaid Services (CMS) Medicare Contractor Beneficiary and Provider Communications Manual, (Pub. 100-09), Chapter 6, Section 50.1 (http://www.cms.gov/manuals/downloads/com109c06.pdf) states:

> Providers shall be required to use the IVR system to access claim status and beneficiary eligibility information. CSRs shall refer providers back to the IVR system if they have questions about claims status or eligibility that can be handled by the IVR system. CSRs may provide claims status and/or eligibility information if it is clear that the provider cannot access the information through the IVR system because the IVR system is not functioning.

IVR Main Menu Options

The CGS IVR System offers claim status and deductible information, redetermination status, beneficiary information for eligibility, check information, and general information. The following options can be accessed from the IVR Main Menu by pressing the corresponding key selection as shown below:
