DME MAC Collaborative
ICD–10 Webinar: Are You Ready?

September 2015
Today’s Presenters

- Judie Roan, Jurisdiction A
- Terri Shoup, Jurisdiction B
- Angie Cooper, Jurisdiction C
- Michelle Wullstein, Jurisdiction D
Webinar Access

- All registrants received an email from: Medicare Webinar by National Government Services
  [GoToWebinar.Notifications@citrixonline.com]
  - Click on the link within the email to join the web presentation
  - Using your telephone, dial into the conference call using the number and access code provided in the email
Today’s PowerPoint Presentation

- Available via GoToWebinar
  - Click on the handout on the right hand side of your screen
- Available on each of the DME MACs website within the education and training section of their websites
Audio

- Once you are connected to the audio, the PIN displays
  - Input the PIN on your screen into your telephone
  - Dial in number and PIN are unique for each attendee
Disclaimer

The Durable Medical Equipment Medicare Administrative Contractors (DME MACs) have produced this material as an informational reference for providers furnishing services in our contract jurisdictions. DME MAC employees, agents, and staff make no representation, warranty, or guarantee that this compilation of Medicare information is error-free and will bear no responsibility or liability for the results or consequences of the use of this material. Although every reasonable effort has been made to assure the accuracy of the information within these pages at the time of publication, the Medicare Program is constantly changing, and it is the responsibility of each provider to remain abreast of the Medicare Program requirements. Any regulations, policies and/or guidelines cited in this publication are subject to change without further notice. Current Medicare regulations can be found on the Centers for Medicare & Medicaid Services (CMS) website at http://www.cms.gov.
No Recording

- Attendees/providers are never permitted to record (tape record or any other method) our educational events
  - This applies to webinars, teleconferences, live events, and any other type of DME MAC educational event
Objectives

- This webinar will review the basics of ICD–10 and discuss topics such as: why move to ICD–10, billing changes that will occur, frequently asked questions and resources to ease the transition.
Agenda

- Why move to ICD-10?
- What will change?
- What will not change?
- What are GEMs?
- When do I start billing ICD-10 codes?
- How do I remain educated?
- ICD-10 Summary
- Questions
Why Move to ICD–10?
Why Move to ICD–10?

- Tenth Revision of the International Statistical Classification of Diseases and Related Health Problems (ICD–10)
- Codes reflect modern medicine and updated medical terminology
- Improved efficiencies
- More accurate reimbursement
  - Degree of illness severity captured more easily
Why Move to ICD–10?

- Mandatory for claims payment
  - Required for both electronic and paper claims
  - Claims returned as unprocessable
ICD–10 Fun Fact

- Did you know that one-third of the code expansion that will occur with ICD–10 is due to the addition of laterality, the specification of left or right?
What Will Change?

</tbody>
</table>
What Will Change?

- Codes will increase from 17,000 to over 150,000
  - Billing departments must be trained on the new ICD–10 code sets
- Claim billing software needs to be updated
  - Ensure your billing software is updated
  - Verify your billing service or clearinghouse will be compliant by the October 1 implementation date
ICD–10 Fun Fact

- Did you know you can still conduct Acknowledgement Testing any time prior to October 1?
Testing Opportunities

- Two types of testing as outlined by CMS:
  - Acknowledgement (front-end)
  - End-to-End

- Acknowledgement Testing
  - Registration is not required
  - Test any time prior to October 1
    - No minimum or maximum number of claims required
    - Ensure the claims are “clean” claims
      - Current dates of service
      - Valid ICD-10 codes
      - Include “T” in the ISA–15 field to identify it as a test claim
ICD–10 Fun Fact

ICD–10 will expand the code sets to over 150,000 codes but did you know that most practices will only utilize a fraction of the codes for a majority of their billing?
What Will Change?

- Medical Policies updated to include the appropriate ICD–10 codes
  - List of medical policies converted to ICD–10 effective October 1 are available on CMS’ website

http://www.cms.gov/medicare-coverage-database
What Will Change?

- **CMN and DIF Form Revisions**
  - Minor changes
    - “ICD–9 Diagnosis” removed and replaced with “Diagnosis Code”
    - “HCPCS code” removed and replaced with “Supply Item/Procedure Code”
  - Required on or after October 1, 2015
    - For initial, recertification or revised CMNs and DIFs
  - Not required when changing diagnosis from ICD–9 to ICD–10
What Will Not Change?
What Will Not Change?

- CMNs and DIFs will not need to be updated for claims submitted on or after October 1, 2015
  - CMNs and DIFs created on or after October 1, 2015 must use ICD-10 codes
  - Ensure the diagnosis codes billed on the claim are supported by documentation in the medical record
  - Published on May 28, 2015
What Will Not Change?

- New medical record documentation is not needed, as long as:
  - Medical records and supporting documentation substantiate the ICD-10 code billed
What are GEMs?
What are GEMs?

- General Equivalence Mappings
- Created by CMS and the CDC
- The GEMS can be used to:
  - Assist with conversion of ICD–9 to ICD–10
  - Assist with the conversion of ICD–10 to ICD–9
  - Ensure that consistence in national data is maintained
- To access the GEMs, visit the CMS ICD–10 webpage
  - Select the ICD–10 and GEMs link for the appropriate year
Forward Mapping
ICD–9 $\rightarrow$ ICD–10

- One ICD–9 DX is represented by multiple ICD–10 DX

820.02
(ICD–9)

S72.031A
(ICD–10)

S72.032A
(ICD–10)

And more!
Backward Mapping
ICD–10 $\rightarrow$ ICD–9

- One ICD–10 DX is represented by multiple ICD–9 DX

```
E11.341  (ICD–10)
```

```
250.50   (ICD–9)
```

```
362.06   (ICD–9)
```

```
362.07   (ICD–9)
```
## No ICD–9 Predecessor

<table>
<thead>
<tr>
<th>ICD–10</th>
<th>Diagnosis</th>
</tr>
</thead>
<tbody>
<tr>
<td>T500x64</td>
<td>Underdosing of mineralocorticoids and their antagonists, initial encounter</td>
</tr>
<tr>
<td>T501x6A</td>
<td>Underdosing of loop [high–ceiling] diuretics, initial encounter</td>
</tr>
<tr>
<td>T502x6A</td>
<td>Underdosing of carbonic–anhydrase inhibitors, benzothiadiazides and other diuretics, initial encounter</td>
</tr>
<tr>
<td>T503x6A</td>
<td>Underdosing of electrolytic, caloric and water–balance agents, initial encounter</td>
</tr>
<tr>
<td>T504x6A</td>
<td>Underdosing of drugs affecting uric acid metabolism, initial encounter</td>
</tr>
</tbody>
</table>

and more!
GEMs are Temporary

- GEMs are temporary
- The GEMs are not a substitute for learning how to use ICD-10
  - Coders expected to use medical record documentation with ICD-10 coding books to select appropriate codes
  - The GEMs are a tool to assist with the transition
- GEMs will be posted annually by CMS with updates
  - Will be maintained for three years following implementation

When Do I Start Billing ICD–10 Codes?
ICD–10 Fun Fact

- Did you know the Medicare claims processing systems do not have the capability to accept ICD–9 codes for dates of service after September 30, 2015; or accept claims that contain both ICD–9 and ICD–10 codes?
When Do I Start Billing ICD–10 Codes?

- Dates of service prior to October 1: ICD–9 codes
- Dates of service on/after October 1: ICD–10 codes
- CMS will not allow for dual processing of ICD–9 and ICD–10 codes after the October 1 implementation date
  - Do not report both ICD–9–CM and ICD–10–CM codes on the same claim, submit separate claims
When Do I Start Billing ICD–10 Codes?

- Claims that require span dates
  - Includes continuous passive motion device, diabetic testing supplies, parenteral and enteral nutrition
  - Use the “From” date to determine which diagnosis code set to bill
    - DOS 9/25/2015–10/25/2015 = ICD–9 codes
    - DOS 10/1/2015–11/1/2015 = ICD–10 codes
  - You do not have to split claims
When Do I Start Billing ICD–10 Codes?

- CMS1500 Form and ICD–10
  - Revised 1500 form version 02/12
    - Indicators for differentiating between ICD–9–CM and ICD–10–CM diagnosis codes
  - The “ICD Indicator” identifies the ICD code set being reported. Enter the applicable ICD indicator according to the following:
    - 9 ICD–9–CM diagnosis
    - 0 ICD–10–CM diagnosis
  - Enter the indicator as a single digit between the vertical, dotted lines
When Do I Start Billing ICD–10 Codes?

- **PC–ACE Pro32**
  - Free, ICD–10 compliant software program
  - Bill claims and attachments electronically
    - Including MSP claims
  - Available on CEDI website
    - Instruction guides and manuals

http://www.ngscedi.com
ICD–10 Fun Fact

Did you know that Medicare will require the usage of ICD–10 codes on **paper claims** as well as electronic claims as of the October 1, 2015 implementation date?
