Small Volume Nebulizers (A7003, A7004, A7005) & Related Compressor (E0570)

**REQUIRED DOCUMENTATION**

**5 Element Order (5EO) obtained prior to Delivery for E0570**

- **5 Element Order** contains:
  - Beneficiary’s name
  - Prescribing physician/practitioner’s NPI
  - A description of the item of DME ordered - the description can be either a general description (e.g., wheelchair or hospital bed), a HCPCS code, a HCPCS code narrative, or a brand name/model number
  - Signature of the prescribing physician/practitioner
  - Order date

- The 5EO must be completed within six (6) months after the required face-to-face examination
- The date of the written order shall be on or before the date of delivery
- Any changes or corrections have been initialed/signed and dated by the ordering physician

**Documentation of Dispensing Order** (preliminary written or verbal order) that contains:

- Description of the item
- Name of the beneficiary
- Prescribing physician/practitioner’s name
- Date of the order
- Prescribing physician/practitioner’s signature (if a written order) or supplier signature (if verbal order)

**NOTE:** If the claim includes a nebulizer with compressor (HCPCS code E0570), a 5EO must be obtained prior to delivery. A nebulizer with compressor cannot be delivered based on a dispensing order. A dispensing order for related supplies and inhalation drugs is only required if these items are dispensed prior to obtaining the detailed written order.

**Detailed Written Order** (original, faxed, or copied) that contains:

- Beneficiary’s name
- Prescribing physician/practitioner’s signature (and date if applicable*)

* Someone other than the physician/practitioner may complete the DWO of the item unless statute, manual instructions, the contractor’s LCD or policy articles specify otherwise. However, the prescribing physician/practitioner must review the content and sign and date the document.

- The date of the order
- A list of every separately billable item with refill/replacement instructions
- The type of solution to be dispensed is described by either:
  - The name of the drug and the concentration of the drug in the dispensed solution (Example: Cromolyn 20 mg/2 ml.) or
  - The name of the drug and the number of milligrams/grams of drug in the dispensed solution (Example: Albuterol 2.5 mg and Cromolyn 20 mg in 3 ml saline)
- Administration instructions specify the amount of solution and the frequency of use (Example: 3 ml QID and PRN – max 6 doses/24 hr)
# Nebulizers and Inhalation Drugs Documentation Checklist

- Route of administration
- Number of refills
- Quantity to be dispensed
- Any changes or corrections have been initialed/signed and dated by the ordering physician

Physician's signature on the written order meets CMS Signature Requirements

Medical Records

☐ If the claim includes a nebulizer with compressor (E0570), the medical records include a face-to-face examination by the treating physician that meets the following requirements:
  ☐ The examination occurred within 6 months prior to the date of the written order that was obtained prior to delivery; and
  ☐ The examination documents that the beneficiary was evaluated and/or treated for a condition that supports the need for a nebulizer with compressor in order to administer inhalation drugs.

☐ The medical record supports that it is medically necessary to administer one of the following inhalation drugs for one of the listed covered conditions (the medical record should contain the name of the drug in nebulizer form and the condition).

☐ Physician’s signature on the written order meets CMS Signature Requirements

Continued Medical Need for the equipment/accessories/supplies is verified by either:
  ☐ A refill order from the treating physician dated within 12 months of the date of service under review; or
  ☐ A change in prescription dated within 12 months of the date of service under review; or
  ☐ A medical record, dated within 12 months of the date of service under review, that shows usage of the item.

Claims for a Small Volume Ultrasonic Nebulizer (E0574)
A small volume ultrasonic nebulizer is reasonable and necessary to administer treprostinil inhalation solution only (See Treprostinil/Iloprost Inhalation Solution Checklist). Claims for code E0574 used with other inhalation solutions will be denied as not reasonable and necessary.

Claims for HCPCS Code E1399 (Miscellaneous Equipment or Accessories)
☐ The claim includes a clear description of the item including:
  ☐ The manufacturer’s name,
  ☐ The model name/number,
  ☐ Pricing information, and
  ☐ An explanation of medical necessity.

Claims for HCPCS Code J7699 (NOC Nebulizer Drug Code)
☐ The claim is accompanied by:
  ☐ Detailed order information as described in the written order requirements,
A clear statement of the number of ampules/bottles of solution dispensed, and
Documentation of the medical necessity of the drug for that beneficiary.

NOTE: It is expected that the beneficiary’s medical records will reflect the need for the care provided. These records are not routinely submitted to the DME MAC but must be available upon request. Therefore, while it is not a requirement, it is a recommendation that suppliers obtain and review the appropriate medical records and maintain a copy in the beneficiary’s file.

Additionally, while the nebulizer drug LCD does not require suppliers who only provide the nebulizer to keep a file copy of the written order for the drug(s), it is strongly recommended that the supplier do so. In the event of a claim audit by the DME MAC, CERT, or ZPIC contractor, documentation the supplier will be required to submit an order to verify the medical necessity for the nebulizer will include a copy of the detailed written order for the drug(s). Failure to provide the written order in a timely manner could result in denial of the nebulizer claim and an overpayment assessment.
