REQUIRED DOCUMENTATION

☑ Written Documentation of a Dispensing Order (written, fax, or verbal order) that includes:
  ☐ Description of the item
  ☐ Prescribing physician/practitioner’s name
  ☐ Name of the beneficiary
  ☐ Date of the order
  ☐ Prescribing physician/practitioner’s signature (if a written order) or supplier signature (if verbal order)

NOTE: A dispensing order for related supplies is only required if the items are dispensed prior to obtaining the detailed written order.

☑ Detailed Written Order that includes:
  ☐ Beneficiary’s name
  ☐ A description of all items, options, accessories or additional features that are separately billed or require an upgraded code. The description can be either a general description (e.g., wheelchair or hospital bed), a HCPCS code, a HCPCS code narrative, or a brand name/model number.
  ☐ Quantity to dispense
  ☐ The specific frequency of use (“as needed” or “prn” orders are not acceptable)
  ☐ Prescribing physician/practitioner’s signature (and date if applicable*)

* Someone other than the physician/practitioner may complete the DWO of the item unless statute, manual instructions, the contractor’s LCD or policy articles specify otherwise. However, the prescribing physician/practitioner must review the content and sign and date the document.

☐ The date of the order

☐ Physician’s signature on the written order meets CMS Signature Requirements

NOTE: Suppliers should not submit claims to the DME MAC prior to obtaining a detailed written order. Items billed to the DME MAC before a signed and dated detailed written order has been received must be submitted with modifier EY.

NOTE: If a supplier utilizes a shipping service or mail order, suppliers have two options for the DOS to use on the claim:

1. Suppliers may use the shipping date as the DOS. The shipping date is defined as the date the delivery/shipping service label is created or the date the item is retrieved by the shipping service for delivery. However, such dates should not demonstrate significant variation.

2. Suppliers may use the date of delivery as the DOS on the claim.

Medical Records for all HCPCS codes

□ Medical records verify that the beneficiary has permanent urinary incontinence or permanent urinary retention.

□ The impairment of urination is not expected to be medically or surgically corrected within 3 months.
UROLOGICAL SUPPLIES: INTERMITTENT CATHETERS

DOCUMENTATION CHECKLIST

☐ Clinician signature(s) on medical records meets CMS Signature Requirements

Claims for Coude or Curved Tip Catheters (HCPCS Code A4352)
☐ The beneficiary’s medical record documents the medical necessity for this type of catheter.

NOTE: Use of a Coude tip catheter in female beneficiaries is rarely reasonable and necessary.

Claims for Sterile Intermittent Catheter Kits (HCPCS Code A4353)
☐ The beneficiary meets one of the following criteria:
  ☐ The beneficiary resides in a nursing facility.
  ☐ The beneficiary is immunosuppressed (examples are not all-inclusive):
    ☐ On a regimen of immunosuppressive drugs post-transplant,
    ☐ On cancer chemotherapy,
    ☐ Has AIDS, or
    ☐ Has a drug-induced state such as chronic oral corticosteroid use.
  ☐ The beneficiary has radiologically documented vesico-ureteral reflux while on a program of intermittent catheterization.
  ☐ The beneficiary is a spinal cord injured female with neurogenic bladder who is pregnant (qualifies only for the duration of the pregnancy).
  ☐ The beneficiary has had distinct, recurrent urinary tract infections while on a program of sterile intermittent catheterization with A4351/A4352 and sterile lubricant A4332, twice within the 12-months prior to the initiation catheterization with the sterile intermittent catheters kits.

☐ Signatures on documents meet CMS Signature Requirements

ATTENTION!

A beneficiary would be considered to have a urinary tract infection if they have a urine culture with greater than 10,000 colony forming units of a urinary pathogen AND concurrent presence of one or more of the following signs, symptoms or laboratory findings:
• Fever (oral temperature greater than 38º C [100.4º F]);
• Systemic leukocytosis;
• Change in urinary urgency, frequency, or incontinence;
• Appearance of new or increase in autonomic dysreflexia (sweating, bradycardia, blood pressure elevation);
• Physical signs of prostatitis, epididymitis, orchitis;
• Increased muscle spasms; or
• Pyuria (greater than 5 white blood cells [WBCs] per high-powered field).

REMINDERS
• When codes A4217, A4450, and A4452 are used with Urological Supplies, they must be billed with the AU modifier. For this policy, codes A4217, A4450, and A4452 are the only three codes for which the AU modifier may be used. Claim lines for codes A4217, A4450 and A4452 billed for urological supplies without an AU modifier will be rejected as missing information.
• Suppliers must add a KX modifier to a code only if the order indicates the beneficiary has permanent urinary incontinence or urinary retention, and if the item is a catheter, an external urinary collection device, or a supply used with one of these items.

• If all the criteria in the Nonmedical Necessity Coverage and Payment Rules section of the Policy Article are not met, the GY modifier must be added to the code.

• Claims lines billed without a KX or GY modifier will be rejected as missing information.

• Refer to the Supplier Manual for more information on documentation requirements.

• Claims lines billed without a KX, GA, GY or GZ modifier will be rejected as missing information.

  - JC: https://www.cgsmedicare.com/jc/coverage/LCDinfo.html

• DME MAC Supplier Manual

NOTE: It is expected that the beneficiary’s medical records will reflect the need for the care provided. These records are not routinely submitted to the DME MAC but must be available upon request. Therefore, while it is not a requirement, it is a recommendation that suppliers obtain and review the appropriate medical records and maintain a copy in the beneficiary’s file.

DISCLAIMER

This document was prepared as an educational tool and is not intended to grant rights or impose obligations. This checklist may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either written law or regulations. Suppliers are encouraged to consult the DME MAC Supplier Manual and the Local Coverage Determination/Policy Article for full and accurate details concerning policies and regulations.
