

2014

Bundled, Inactive, and Non-Payable Codes for 2014: Medicare Physician Fee Schedule Database

The Centers for Medicare & Medicaid Services (CMS) designates the status of HCPCS and CPT codes in the Medicare Physician Fee Schedule Database (MPFSDB). The status of codes may be updated periodically throughout the year and when the calendar year changes. Codes designated as Status A are active codes, are separately payable under the Medicare Physician Fee Schedule (assuming any existing coverage criteria are met), and have associated Relative Value Units (RVUs) and payment amounts. The list of Status A codes is extensive, and these codes are not listed in this article.

Status B	2	Status M	24	Status R	38
Status C	3	Status N	30	Status T	40
Status E	9	Status P	35	Status X	41
Status I	15	Status Q	37		

STATUS B

Status B codes are bundled. Payment for these services is always included in payment for other services not specified. There are no RVUs or payment amounts for these codes, and separate payment is not made.

STATUS C

Status C codes are priced by each contractor. CGS establishes RVUs and payment amounts for these services, generally on an individual basis, based on review of documentation (such as operative reports).

STATUS T

Status T codes are only paid separately if there are no other physician services payable under the MPFS billed on the same date of service by the same provider. If any other services payable under the MPFS are billed on the same date of service by the same provider, these services are bundled into payment for the physician service.

STATUS X

Status X codes are statutorily excluded from coverage under the physician fee schedule. These codes represent items or services that are not included in the statutory definition of "physician services" for fee schedule purposes. There are no RVUs or payment amounts for these codes, and separate payment is not made under the physician fee schedule. Status X codes may be payable under a different fee schedule; this list includes codes that are payable under the ambulance fee schedule and clinical laboratory fee schedule.
