DME MAC DMEPOS

Documentation Requirements

DMEPOS suppliers are your partners in caring for your patient. They will not receive payment from Medicare for the items that are ordered if you do not provide information from your medical records when it is requested.

- Not providing this information may result in your patients having to pay for the item themselves.
- The practitioner's cooperation is a legal requirement as outlined in the Social Security Act, the law governing Medicare. Section 1842(p)(4) of the Act mandates that:

[i]n case of an item or service...ordered by a physician or a practitioner... but furnished by another entity, if the Secretary requires the entity furnishing the item or service to provide diagnostic or other medical information in order for payment to be made to the entity, the physician or practitioner shall provide that information to the entity at the time that the item or service is ordered by the physician or practitioner.
